# Inspired by wind – Powered by people

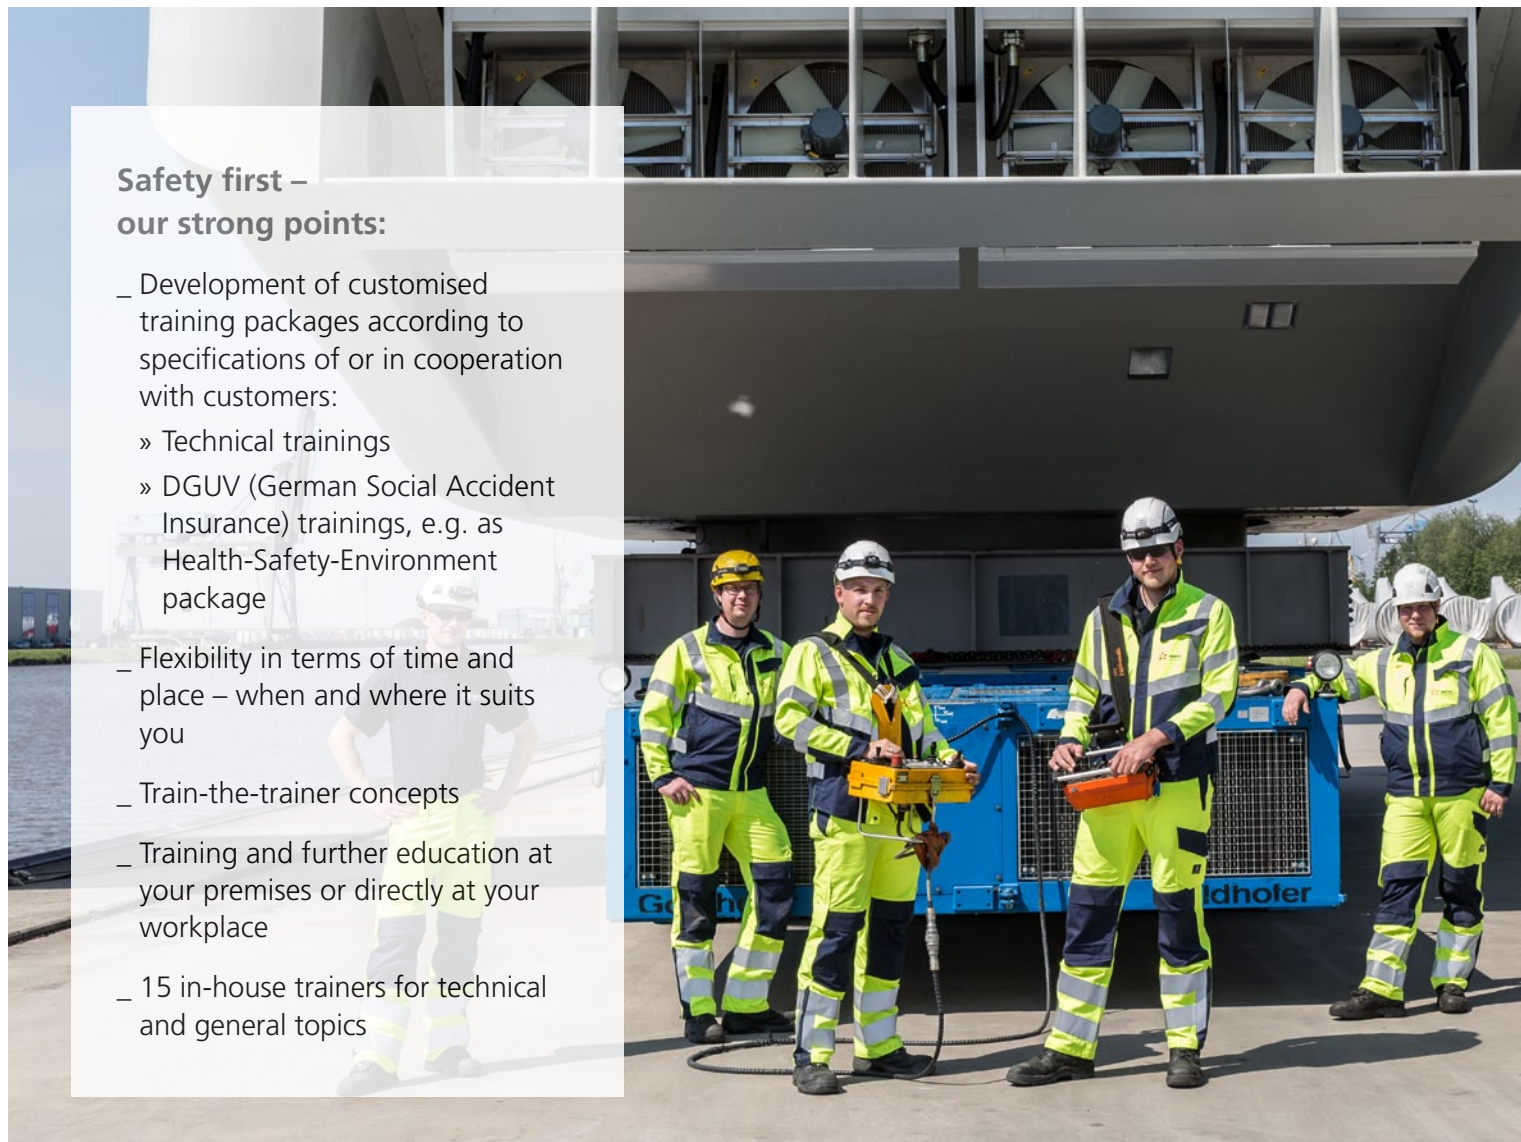

Not a fancy advertising slogan, but our leitmotif, which we live by. Therefore, the safety and health of our employees on land and at sea is our top priority. During their assignments, they face enormous physical and mental challenges and there is good reason for strict HSE guidelines.

At our locations in Bremen and Emden, our HSE experts offer standardised safety trainings and current training courses on occupational safety and health issues. Naturally, for the onshore and offshore sectors – but also for other industries that work at high and low altitudes, e.g. in high-bay warehouses, construction or telecommunications.

Our customers include OWS Off-Shore Wind Solutions, various personnel service providers, UL (DEWI-OCC GmbH) and Ocean Breeze Energy. But the figures also speak for themselves: with around 2,800 participants and 350 training topics offered each year.

## Safety first – our strong points:

- \_ Development of customised training packages according to specifications of or in cooperation with customers:
  - » Technical trainings
  - » DGUV (German Social Accident Insurance) trainings, e.g. as Health-Safety-Environment package
- \_ Flexibility in terms of time and place – when and where it suits you
- \_ Train-the-trainer concepts
- \_ Training and further education at your premises or directly at your workplace
- \_ 15 in-house trainers for technical and general topics

### Safety trainings at a glance:

- \_ GWO-certified basic safety training
- \_ Annual DGUV instructions
- \_ DGUV First Aid
- \_ Offshore First Aid: as the only legitimated provider in cooperation with DPSmedic – scenario-based and practice-oriented
- \_ Company paramedic – in cooperation with DPSmedic
- \_ Personal protective equipment (PPE) against falls / while working at high and low altitudes

### Technical trainings at a glance:

- \_ Bolt-Torque-Tension
- \_ Expert knowledge for testing ladders and climbing protection systems
- \_ Attaching loads
- \_ Gearbox training level I-III in cooperation with well-known gearbox manufacturers
- \_ Aviation Aid Systems
- \_ Electrotechnically trained person (German: EUP) – training and annual instruction
- \_ Industrial trucks – driving licences and instructions

### Specialists in the industry with whom we cooperate in the field of training:

- \_ Deutsche WindGuard GmbH
- \_ Falck Safety Services
- \_ DPSmedic / Druckpunkt Solutions
- \_ M.E.B. Services GmbH
- \_ Rope Access Solutions GmbH
- \_ PLARAD Torque & Tension Systems
- \_ HYTORC
- \_ Trainingscenter für Sicherheit & Transport GmbH
- \_ Triowind GmbH
- \_ Wind Multiplikator QHSE GmbH
